MEDIA RELEASE

Public Invited to Participate in 2018 Citizen Survey

SAHUARITA, Ariz. — Residents should look for the 2018 Citizen Survey in their mailbox. The Town of Sahuarita has partnered with Strongpoint Marketing to conduct the Citizen Survey. Participants are selected by scientifically valid random sample to provide feedback for shaping future Town development. Citizens are asked to share opinions regarding quality of life, transportation, communication, governance, growth, parks and recreation, crime and police, town amenities – including the formation of a Town District Center, and more.

Your answers will help guide Town Council decisions that affect our community and help set benchmarks for tracking the quality of services provided to residents. The results from the 2018 Citizens Survey will build upon results from past surveys to continue to extend the Town’s effort to positively engage citizens. Residents should see the surveys soon. The first surveys and instructions for completion are in the mail and additional surveys will be mailed next week.

“This survey is vital to the development of the Town of Sahuarita now and in the future,” said Mayor Tom Murphy. “We want to grow in a positive direction and your input is vital to that strategy. Please participate, as your feedback is very important to us!”
